SUMMARY

Computer Science student with hands-on experience in machine learning, full-stack web development, and scalable application design. Built AI-powered fault detection systems and location-based platforms using Python, TensorFlow, JavaScript, MongoDB, and Supabase. Strong foundation in DSA, OOP, DBMS, and problem-solving.

SKILLS

Programming Languages: Python, SQL, Java

Technologies: Machine Learning, Deep Learning

Database: MySQL

Tools: Git, GitHub, Google Colab, VS Code

Concepts: Data Structures & Algorithms, OOP, DBMS, SDLC, Agile, Debugging, Automation

Soft Skills: Team Leadership, Communication Skills, Analytical Thinking, Team Collaboration, Adaptability in Fast-Paced Environments

PROJECTS

Solar Panel Fault Detection Using Deep Learning

Developed an AI and Drone-based solar panel fault detection system using Convolutional Neural Networks (CNNs) to identify panel conditions such as cracked, dusty, and normal from image data. Implemented image preprocessing, model training, and evaluation pipelines to improve classification accuracy and support automated maintenance.

Technologies: Python, TensorFlow, Keras, CNN, Image Processing

Find My Worker – Worker Booking Platform

Built a full-stack worker booking platform enabling location-based worker search, secure authentication, and real-time booking management. Designed scalable user and worker modules with API-driven workflows inspired by modern ride-hailing systems for efficient task allocation.

Technologies: HTML, CSS, JavaScript, Supabase, REST APIs

Clean City Reporter – Civic Issue Management Platform

Developed a scalable full-stack web platform enabling users to report and track location-based civic issues in real time. Implemented secure authentication, MongoDB-based data management, and API-driven workflows to enhance complaint monitoring and reporting efficiency.

Technologies: HTML, CSS, JavaScript, MongoDB, REST APIs

EDUCATION

B.Tech in CSE (AI & ML), Kalasalingam University, CGPA: **8.45**/10 — [2023–2027]

Intermediate (MPC), Gitam Jr. College, Marks: **865**/1000 — [2021–2023]

Secondary School Education, Yasoda Concept School, Marks: **577**/600 — [2021]

LANGUAGES KNOWN

English, Telugu, Hindi, Kannada (Familiar), Tamil (Familiar)
